SUMMARY

Backend engineer building reliable, auditable payment and risk systems for fintech. A year of production software engineering (REST APIs, SQL, CI/CD) plus FinGuard PayOps — a SEPA-style payment platform with fraud and risk scoring, compliance alerts, analyst review, and full audit trails. MSc Data Science adds data-driven decisioning and explainable risk. Targeting German and EU fintech, payments, and regtech. English fluent (C1+); German A2 and actively improving.

EXPERIENCE

Associate Software Developer — EigenSecure (Remote, USA)

Mar 2024 – Apr 2025

- Built production backend services and RESTful APIs on an Agile team across MySQL, PostgreSQL, and MongoDB — including access control, evidence workflows, and compliance-style data.
- Optimised SQL queries, data workflows, and CI/CD pipelines for reliable deployments and traceable audit trails — the operational discipline fintech systems require.
- Translated security and business requirements into working systems and communicated trade-offs to technical and product stakeholders.

SELECTED PROJECTS

FinGuard PayOps — Fintech Payment Risk & Compliance

2026

- A production-style German/EU payment operations platform: SEPA-style payment lifecycle, rule-based fraud and risk scoring with high-risk reasons, compliance alert case management, and an analyst approve/reject workflow.
- Full audit logging for every decision, plus a DORA-style resilience/incident dashboard and clean, observable architecture.
- Stack:** Java 21, Spring Boot 3, PostgreSQL, Redis, Kafka, React, TypeScript, Docker · github.com/srohitsuryaa21/FinGuard-PayOps

DeFi Farmer Platform — Blockchain Finance (IEEE)

2024

- A transparent agricultural finance system using smart contracts to automate loans, payments, insurance, and supply-chain traceability for smallholder farmers.
- Built Ethereum contracts with a Web3.py backend and local Ganache validation. Peer-reviewed IEEE publication.
- Stack:** Ethereum, Solidity, Web3.py, Ganache, smart contracts · [DOI: 10.1109/ICSCSS60660.2024.10625462](https://doi.org/10.1109/ICSCSS60660.2024.10625462)

Supply Chain Intelligence — Risk & Forecasting

2025

- End-to-end analytics pipeline over 110,123 transactions: SARIMA forecasting at sub-20% MAPE, inventory optimisation, and seller-risk scoring for 881 sellers, with a decision dashboard.
- Stack:** Python, Pandas, SARIMA, XGBoost, Plotly Dash, SQL · github.com/srohitsuryaa21/supply-chain-forecasting

Windmill Pitch Prediction — Applied ML (IEEE)

2024

- Data-driven decisioning: XGBoost with a residual-correction layer over turbine data, 96% accuracy, error 8.6% -> 2.3%. Peer-reviewed IEEE publication.
- Stack:** Python, XGBoost, time-series, statistical evaluation · [DOI: 10.1109/ICEMCE57940.2023.10433983](https://doi.org/10.1109/ICEMCE57940.2023.10433983)

PUBLICATIONS

- DeFi Farmer Platform** — IEEE ICSCSS 2024 — blockchain-based agricultural finance. [DOI: 10.1109/ICSCSS60660.2024.10625462](https://doi.org/10.1109/ICSCSS60660.2024.10625462)
- Windmill Pitch Prediction with Adaptive Control** — IEEE ICEMCE 2023 — applied machine learning. [DOI: 10.1109/ICEMCE57940.2023.10433983](https://doi.org/10.1109/ICEMCE57940.2023.10433983)

EDUCATION

MSc Data Science — Hochschule Fulda, Germany

Apr 2025 – Present

Focus: Big Data & Distributed Systems, Data Mining & Predictive Analytics, Process Mining, Research Methods, Data Ethics & GDPR.

BTech Big Data Computer Science — SRM University, Chennai, India

Aug 2020 – Nov 2024

Focus: Big Data systems, Distributed Systems, Algorithms, Databases, Software Engineering.

TECHNICAL SKILLS

Backend: Java 21, Spring Boot, C#, ASP.NET Core, REST APIs, JWT, service/layered architecture

Fintech Domain: SEPA-style payments, fraud & risk scoring, compliance alerts, audit logging, KYC-aware workflows, open-banking consent, DORA-style resilience

Data: PostgreSQL, MySQL, MongoDB, Redis, complex SQL, Flyway, Python, Pandas

Platform / DevOps: Docker, Kafka/Redpanda, CI/CD (GitHub Actions, Jenkins), Azure, Git, Grafana, observability

Frontend: React, TypeScript, dashboard design

CERTIFICATIONS

IBM Data Science Professional (Coursera)
